AUDITOR'S REPORT

I have carefully examined the foregoing accounts of
the Treasurer and Selectmen and find them correct.

HENRY G. SINNOTT.

REPORT

OF THE

Superintendent of Schools

To the Honorable School Committee, Board of Selectmen,
and Citizens of North Kennebunkport:—

Ladies and Gentlemen:

I have the honor to submit for your consideration my fifth annual report of schools. It seems desirable in the brief compass of this report to stress those aspects of education which have community significance.

The Iron Bridge school was opened by vote of the town April 1, 1929. Thus there have been four schools in North Kennebunkport since that time. The opening of the Iron Bridge school has measurably relieved the Burnham school and has been greatly appreciated by the pupils and parents of the district.

FINANCIAL

You will remember that no special appropriation was made to care for the maintenance of the Iron Bridge school that could be considered adequate. There has been 24 weeks of school maintained at the school from this year's budget. This could not have been done if you had not liberally raised money for transportation which, at the time of the Town Meeting, seemed an inevitable item of school expense. However, when the decision to open the Iron Bridge school was arrived at, no further appropriation was made to carry out your orders for opening this school. The amount has been nearly sufficient to run this school since April together

with the other schools without a very large overdraft. In order to maintain this school the full school year your total budget must be raised slightly.

ATTACHED TOILET

There was an act by the Legislature in 1923 setting the date for completion of attached toilets. This legislative act makes it necessary to have school toilets ten feet from the school building connected by a ventilated passage-way. The toilets are to be entered from the school room and in view of the teacher. Thus the old outside privy is done away with. The State Educational Department will furnish blue prints for such specifications as are necessary to comply with the law free of charge. This law of the attached toilets applies to Iron Bridge school building if a school is to be maintained.

TRANSPORTATION

There are at present four pupils who are transported from the Irving School district. One of these pupils is transported to the Durell school. Three pupils are transported to the Upper Alewife school in Kennebunk. There will be several more children in this district in the near future.

STATISTICS

The April census for 1929 showed that there were 72 boys and 57 girls between the ages of five and twenty-one years. Of this number, 55 were enrolled in the elementary schools this fall. The total enrollment, which included those children who changed residences during the year, was as follows: Elementary schools 73, tuition pupils elementary 15, and tuition pupils secondary 9. This makes a total of 97 pupils whose tuition is cared

for in your school budget. The daily average attendance has been 52 pupils in the town schools.

The teachers of North Kennebunkport have been urged to attend the monthly teacher conferences held in Saco for the discussion of school work of the three towns of the Union. The aim has been to co-ordinate this work. Two of your teachers have not missed a single session. This helps, I think, in keeping North Kennebunkport teachers in touch with the activities of the teachers of other towns and tends to make for open minded progress. The School Committee have sanctioned this spirit of progress and urge that all teachers avail themselves of this chance to get the interchange of ideas so vital to up-to-date teaching. The day of provincialism is past, the wider concepts of education are at hand

H. C. HULL,
Superintendent of Schools.

Approved by the School Committee.
